Results of thematic session A

“Name your mountain” session

The aim of this session was to start an **exchange among participants** on the status of activities and initiatives in the Alpine area in each of the seven specific objectives of the programme, and to **identify challenges and needs** for cooperation.

Based on a **mountain-shaped template**, the participants were invited to fill in their name, institution and field of expertise, as well as to formulate the challenge they identified for the Alps. The participants then took turns to introduce themselves and their “mountain“, before placing it close to another mountain with a related challenge so as to constitute a mountain range on similar topics.
