

# Review on e-MOTICON and outlook on the Alpine Space programme

*Final conference*  
*26 March 2019 - Milan*

# E-MOTICON: the programme expectations

- Contribution to programme results, positive impact on the level of potential to access and use low carbon mobility and transport options (specific objective 2.2)
- Contribution to relevant regional, national and EU strategies, especially EUSALP (action groups 4 and 9)
- Sustainability and transferability of outputs
- Added value in the territory, and in policy making

# E-MOTICON and other Alpine Space projects

- BB-CLEAN
- CESBA Alps
- GREENCYCLE
- GRETA
- IMEAS
- PEACE\_Alps
- SMART-ALTITUDE
- THE4BEES

- AlpInnoCT
- ASTUS
- **E-MOTICON**
- MELINDA
- SAMBA

And the future projects of call 4 to be approved in October 2019

# Outlook on the Alpine Space programme

- New framework for the regional development and the cohesion policy, with five investment priorities among which:
  - Greener, carbon free Europe, Smarter Europe, and a more Connected Europe, with strategic transport and digital networks
- Simplification: shorter, fewer, clearer rules : [80 simplification measures in cohesion policy 2021-27](#)
- Start of the programming process for the next Alpine Space Programme
